To whom it may concern:

From the Chair

Thank you for your help.

Best wishes for a wonderful Holiday!

Dr. Wahab

Joe Hudspeth Appointed EDBA

Joe Hudspeth, MBA, FASHE, the new Vice Chair of Business Administration for UC Health Radiology effective November 1, was appointed to this position.

Hudspeth has been serving the EDBA since August 2016. He is a CPA and former Executu- e Director of Business Administration at the Cincinnati Children’s Hospital Medical Center (UCBAMC). He has been selected to participate in the Association of Advancement of Physi- cal Administrators (AAPA) Health Care Administration Training Program for the fall of 2017.

Hudspeth will work closely with Dr. Bruce Mahoney, MD, Chief of Imaging Services, in overseeing the business and administrative aspects of the Department.

Hudspeth has a degree in Business Administration and a Master’s degree in Business Administration. He is a Certified Public Accountant and holds a CPA license.

Happy Holidays!

You are invited to follow the UC Imaging Matters on site at the RSNA meeting in Chicago on November 29 and December 1.

Rifat Wahab, DO appeared on WLWT Channel 5 on October 23, 2016 to promote “Own Your Own Health” and extend our reach into technologies such as medical wearables.

From the Chair

You can read about the many scientific presenta-

tions, abstracts, workshops, and even great deals on products and services at the RSNA.

The theme of this year’s conference, “Beyond Imaging: Maximizing Radiology’s Role in Patient Care,” ties in with the efforts of our own department to extend our reach into technologies such as medical wearables.

Joe Hudepohl Appointed EDBA

Joe Hudepohl was appointed Executive Director of Business Administration (EDBA) of UC’s Executive Director of Business & Administration (EDBA). He is a CPA with nearly 30 years in the healthcare field, including six years as Chief Operating Officer at Arlington Orthopaedics and six years as a healthcare consultant. He received his CPA in 2004 and is a member of the American Institute of Certified Public Accountants. He has a Bachelor of Science in Accounting from the University of Cincinnati and has a Master of Business Administration from Xavier University.

Clockwise from left:

Dr. Susan Braley, section chief; Lily Wang, MBBS; Dr. Nicholas Luibrand, MD; Dr. Andrew Bruner, visiting resident; Dr. Marie Caré, MD are authors of the new book “Recognizing Child Abuse in Radiology”. The book is based on the work of the MSK Radiology Section, the UC Radiology Department, and the UC Department of Radiology. The book is primarily on child abuse, but also includes chapters on pediatric imaging, musculoskeletal imaging, and diagnostic and imaging techniques. The book is based on the work of the MSK Radiology Section, the UC Radiology Department, and the UC Department of Radiology.

IMAGING MATTERS

DECEMBER 2016

The Radiology group included residents and fellows met at Cincinnati Country Club. We would like to wish everyone a happy holiday season. More than ever, the goal of Imaging Matters is to bring to you the news that you need to know. For you to relate news to other alumni via “Imaging Matters”.

Lily Wang, MBBS has been chosen to attend the Association for Women in Radiology’s Academic Faculty Development Program in Hollywood, California, in January 2017. The goal of the Academic Faculty Development Program is to bring women into academic radiology. The program is well attended, with plenty of good content on the work of our Advanced Imaging Department’s strategic plan and the Tie the Theme of this year’s conference, “Tying Imaging to Patient Care”, ties in with various presentations, abstracts, workshops, and even Case of the Day presented by our faculty.

From the Chair

As I write this, many of us have started plans for the new year with goals and ideas to the editor, Clint Bramkamp, Chief of Imaging Services, Cincinnati Radiology Department. His email address is clint.bramkamp@uchealth.com.

The MSK Radiology Section met at Ernst & Young. He is a CPA with nearly 30 years in the healthcare field, including six years as Chief Operating Officer at Arlington Orthopaedics and six years as a healthcare consultant. He received his CPA in 2004 and is a member of the American Institute of Certified Public Accountants. He has a Bachelor of Science in Accounting from the University of Cincinnati and has a Master of Business Administration from Xavier University.

In New Orleans, April 30-May 2, 2017.

RSNA featured Big Data and artificial intelligence; Research Lab. Presentations at the annual RSNA meeting in New Orleans, April 30-May 2, 2017. The goal of RSNA is to bring new technology and new ideas to radiology.

Our department held a UC Radiology Reunion reception at RSNA; here are some of the attendees.

- MD, Mary Mahoney
- MD, Eric England
- Joanna Jeong

Eric England, MD and Carl Flink, MD posed with the RSNA logo.

Session.

- Hands-on session.
- Nov 29 and Dec 1, 2016.

JL, Mahoney B, Shah S, Choe KA. Integration of Bremsstrahlung

Gunabushanam G . . . Verma SN. Carotid and renal Doppler. Dec

Argus AD, Wahab RA, et al. MR imaging-guided breast biopsy

Towbin AJ. Utilizing structured reports for patients and families. SIIM annual meeting, Washington DC, Sep 7, 2016.

Choe KA, McDonald NM. Imaging of the thyroid: pathways to patient care. ACR Appropriateness Criteria® Thyroid. J Am Coll Radiol. 2016 Sep;13(9):R36-R44.

Our department held a UC Radiology Reunion reception at RSNA; here are some of the attendees.

Michael Burch, MD presented the MSK Case of the Day on November 28.

Eric England, MD and Carl Flink, MD posed with the RSNA logo.

Saad Ranginwala MD spoke about the uses of social media.

Kotsenas AL, Lail NU, Patel TY, Cook TS, Ranginwala S. Hands-on session.

Demertzos A, Miklowitz. Hands-on session.

Shah, MD (Transplant Surgery) and Smetts MA, MD (Transplant Surgery) signed to bring together UC Health providers and referring physicians in a liver patient, through evaluation and potential transplant.

Dr. Chadalavada’s team did present one of the first $50,000 grants being awarded in the competition, but he was also surprised and gratified when the project received more than $150,000 from four transplant organizations toward their total $50,000 budget, and they continue to work with the project.

The UCmyLiver App, Dr. Rick Lofgren, CEO of UC Health, Innovative Ventures, a novel premedication regimen. World Congress of Bac. Dr. Chadalavada’s team did present one of the first $50,000 grants being awarded in the competition, but he was also surprised and gratified when the project received more than $150,000 from four transplant organizations toward their total $50,000 budget, and they continue to work with the project.

Happy Holidays!

We would like to wish everyone a happy holiday season. More than two hundred faculty and staff, a small portion of Cooper Clinic, a great deal of the University of Cincinnati and our neighbors, and the city of Cincinnati, would like to wish you a happy holiday season as well! We hope that you enjoy some quality time with your families and friends, and that you make time for yourself as well. We look forward to connecting with you next year to join us next year to connect with old colleagues and friends, and meet the vibrant new faculty members and residents that make up the UC Radiology family.

We ended the year with a lovely holiday party. The atmosphere was festive, with good food and drinks, and plenty of captivating conversations. The event was well attended, with plenty of great food and drink. We look forward to connecting with you next year to connect with old colleagues and friends, and meet the vibrant new faculty members and residents that make up the UC Radiology family.
