Krebbs Named Clinical Operations Manager
Karen Krebs, R.T.(R)(CT) has been promoted to Clinical Operations Manager.

Molly Rogg, who has recently transitioned to Assistant Operations Manager for UC Physicians, Karen’s duties will include oversight of radiology, process improvement, enforcing policies and procedures, identifying operational efficiencies, revenue maximization, and monitoring and assessing customer service expectations for both patient and referring physicians. She manages the day-to-day operations of the UC Health Partners Medical Arts Building Imaging Center, including management of clinical and technical support staff. Karen has been with UC Physicians and Radiology for 24 years, and in the last few years as the lead technologist for the UC Health Partners Medical Arts Building Imaging Center, her leadership, professionalism, and dedication to the highest level of patient care have not only been recognized by referring physicians and hospital partners but also by the UC Health Partners. Karen is a valued member of the UC Radiology team and we are thankful for her continued service.

Chief Residents Announced
The Department of Radiology is pleased to announce the selection of chief residents for 2013-14. They assumed their roles on February 1, 2013.

Robert T. Adams, MD
Chief Resident of Neuroradiology
Robert was born and raised in Mississippi, and recently completed his residency training in Diagnostic Radiology at Washington University in St. Louis. He is a member of the American Society of Neuroradiology and the Society of Pediatric Radiology. His research interests include image-guided therapy for peripheral nerves. He is married to Caroline Allison, and they have a daughter named Hurley. Robert enjoys spending time with his family, especially outdoors.

J. Michael Hazenfield, MD
Chief Resident of Interventional Radiology
J. Michael Hazenfield, MD was born in Dallas, TX. After completing his undergraduate studies at Trinity University, he attended medical school at the University of Texas Southwestern Medical School. He completed his residency training in Diagnostic Radiology at the University of Texas Southwestern Medical School in Dallas before completing his fellowship training in Interventional Radiology at the University of Alabama at Birmingham. His research interests include the application of interventional techniques to the treatment of vascular malformations and the management of pediatric vascular anomalies.

Judy Squires attended the University of Texas Medical College at Galveston and completed her transitional year in pediatrics at Cincinnati Children’s Hospital Medical Center. Judy has been working on research projects in musculoskeletal imaging and pediatric radiology and presented her findings at the RSNA Annual Meeting and Chapter Leadership Conference. Judy and her husband, Dr. Mike Hazenfield, expect their first child this summer. Mike is planning to return to a complete neuroradiology fellowship after residency.

Judy Squires, MD
Chief Resident of Musculoskeletal Imaging
Judy Squires attended the University of Texas Medical College at Galveston and completed her transitional year in pediatrics at Cincinnati Children's Hospital Medical Center. Judy has been working on research projects in musculoskeletal imaging and pediatric radiology and presented her findings at the RSNA Annual Meeting and Chapter Leadership Conference. Judy and her husband, Dr. Mike Hazenfield, expect their first child this summer. Mike is planning to return to a complete neuroradiology fellowship after residency.

Anthony Livorine, MD
Chief Resident of Pediatric Imaging
Anthony Livorine, MD was born and raised in New York City. He attended Harvard College and Harvard Medical School. Anthony completed his residency training in Diagnostic Radiology at the University of California, San Francisco. He was chief resident at UCSF and completed his fellowship training in Pediatric Radiology at Cincinnati Children's Hospital Medical Center. Anthony's research interests include musculoskeletal imaging and pediatric radiology. He is married to Dr. Laurel Leithauser, just welcomed their first child, Luke, and plans to complete a neuroradiology fellowship after residency.

Barb Dimmitt Leaves Department
Barb Dimmitt has taken a new position with the Presbyterian Department, where she will be Medical Student Coordinator and manage continuing medical education activities. Barb was our first UC Radiology resident and fellow who presented at the RSNA, and presents an absolute highlight of my tenure here at UC Radiology. Barb is particularly known as founder of the “In the Gutter” campaign to promote “child-sized” imaging and to improve radiation exposure. Her contributions to the department were invaluable and greatly appreciated.

Chief Residents Announced

The Department of Radiology is pleased to announce the selection of chief residents for 2013-14. They assumed their new roles on February 1, 2013.

Anthony Limeres, MD
Tony J. Livorine, MD
Michael Heslop, MD

The Department announces its new chief residents for the upcoming academic year. They said, "It is a great pleasure to have worked with such outstanding individuals and to continue to be associated with them as they move forward in their careers." The new chief residents include:

- Dr. Anthony Limeres
- Dr. Tony J. Livorine
- Dr. Michael Heslop

Their contributions to the Department have been invaluable and greatly appreciated.

UC Radiologists Among 2013 Top Docs

Cincinnati Magazine included 10 of UC's radiologists in its annual Top Docs list in January. For the second year in a row, Dr. Judy Squires was one of the top women in pediatrics.

Judy Squires, MD

Dr. Squires is a board-certified pediatric radiologist. She has been with UC Medical Center for over 20 years and is the director of the Pediatric Radiology Fellowship Program. She is also the Chair of the Department of Radiology at UC.

Drs. Squires and Stavros, MD, were listed under University of Cincinnati Radiology in the Cincinnati Magazine's Top Docs list. Six other UC radiologists were also listed, including Drs. Doan Vu, MD; Jerome F. Wiot, MD; Bruce Mahoney, MD; and Mary Mahoney, MD.

Top Docs' Survey

Cincinnati Magazine published its 2013 Best Doctors List in December. The magazine's recommendations are based on surveys of practicing physicians in the Cincinnati area. The list includes the top 10 doctors in various medical specialties, including radiology.

Drs. Doan Vu, MD; Jerome F. Wiot, MD; Bruce Mahoney, MD; and Mary Mahoney, MD were listed under University of Cincinnati Radiology in the Cincinnati Magazine's Top Docs list. Six other UC radiologists were also listed, including Drs. Squires and Stavros, MD, and Dr. Squires was listed under University of Cincinnati Radiology in the Cincinnati Magazine's Top Docs list.

Please take our Alumni Survey

We are interested in what happens to our alumni once they have left the UC Radiology Residency program, and we would like to provide a means for you to relay news to other alumni in "Imaging Matters." Please go to this web site and take this survey. Everyone's responses are confidential and will be used to promote "child-sized" imaging and to encourage radiation exposure.

UC Radiologists Recognized at RSNA Meeting

Many UC radiologists were named in the Top Doctors surveys conducted by local magazines. The surveys are designed to identify the top doctors in the region.

Dr. Thomas Hazenfield, MD

Dr. Thomas Hazenfield, MD, was named as one of the top radiologists in the Cincinnati area. He is a board-certified radiologist and is also the Chair of the Department of Radiology at UC.

From the Chair

This issue of Imaging Matters features RSNA 2012. Numerous UC radiologists and fellows made presentations at the conference. In the following months, we will feature information on the conference. In the meantime, be sure to visit the RSNA website for more information on the conference.

Janelle Collins, MD, NRE, FCCE, IACIR
Chairman, Imaging Matters
The following is a listing of scholarly activities of UCRadiologists at SRNA 2012.

Dr. Collins Participates in Mexico City ACRE Event

The Alliance for Clinical Education in Radiology (ACER) sponsored the ACRE Annual Meeting, co-organized a first of its kind, US Radiology Educational Forum, and provided an opportunity for the training of academic radiologists, educational leaders, and educators from academia.

Dr. Gawor Collins, on ASCAP ACRE, spoke on part of the symposium. Registrants included 42 academic radiologists involved in undergraduate radiology education programs across Mexico. The symposium focused on promoting lifelong learning, appreciating adult learning theories, improving presentation skills, and effectively using new educational tools, both adult seminars and hands-on workshops.

Mary Mahoney Named UC Radiology Vice Chair of Research

Mary C. Mahoney, MD, FACR, was appointed to the position of radiology vice chair of research on January 1, 2013. She will have leadership roles in the Image 2013 Research and Vince Vance Imaging, along with Dr. Sabath as the Section Chief of Breast Imaging. She recently received a grant from the National Cancer Institute for the Radiology-Driven Clinical Research Pathway: 10-year retrospective review of cancer outcomes in women treated for breast cancer.

She will be a key leader in the Medical School, Research and Vince Vance Imaging, along with Dr. Sabath as the Section Chief of Breast Imaging. She recently received a grant from the National Cancer Institute for the Radiology-Driven Clinical Research Pathway: 10-year retrospective review of cancer outcomes in women treated for breast cancer.

Chief Residents Announced

The Department of Radiology is pleased to announce the selection of chief residents for 2013-14. They assumed their duties on February 1, 2013.

Tony Livorine, MD
Judy Squires, MD
Mike Hazenfield, MD

Livorine was trained by Dr. Thomas, said "His passion for life, his commitment to research, his dedication to his family and career, and his devotion to research, his dedication to our profession make him an obvious choice to be our next Chief Resident."

Livorine and his wife, Dr. Laurel Leithauser, just welcomed their first child, Luke. Tony plans to complete a neuroradiology fellowship after residency.

Judy Squires received her MD from Wayne State University in 2009. She completed her internship in Internal Medicine at the University of Cincinnati. She then completed her residency at UC in Pediatric Radiology. Judy enjoys outdoor activities, running, and working on his house. He and Dr. Chris Heubi are expecting their first child this spring. Mike is planning to complete a radiology residency after residency.

UC Radiologists Among 2013 Top Docs

Cincinnati Magazine announced its annual Top Docs in Medicine in January and, once again, a number of UC radiologists made the list. The magazine asked more than 15,000 local physicians whom they would recommend for their families or friends. Under Radiology, these names appear:

- Tony Livorine, MD
- Judy Squires, MD
- J. Michael Hazenfield, MD

The magazine recognized radiology practice sites, referring physicians, and the Society for Pediatric Radiology. Her contributions to the Department of Radiology were invaluable and greatly appreciated.

Barb Dimmitt Leaves Department

Barb Dimmitt has taken a new position with the Psychiatry Department, where she will be Medical Student Coordinator and manage continuing medical education activities. Barb was with UC Radiology for 18 years as a Medical Assistant (2000-2012) and as Medical Records Coordinator.

Please see inside for RSNA 2012 Endowed Chair of Neuroradiology campaign.

From the Chair

This issue of Imaging Matters features RSNA 2012. Numerous UC radiol- ogists and trainees made presentations at the conference in Chicago, and two were named to the Top Docs surveys. On page six, several faculty were named in the Top Docs surveys conducted by two local magazines. This line story publicized an email to the program of the Robert K. Irwin, MD, Endowed Chair of Neuroradiology campaign.

RSNA 2012 was held at McCormick Place in Chicago November 25-29. The Annual Oration in Diagnostic Radiology was delivered by Dr. Jerome F. Wein, MD.

Robert K. Irwin, MD

The Robert K. Irwin, MD, Endowed Chair in Neuroradiology was presented to Professor Stephen R. Thomas, MD, in 2011. RSNA President George Bisset III, MD, a former UC Radiology resident and fellow who was trained by Dr. Thomas, said "The passion for life, his commitment to research, his dedication to his family and career, and his devotion to our profession make him an obvious choice for this award."

In accepting the award, Dr. Thomas "wants to express my appreciation to the RSNA for this honor. It is particularly rewarding to me. This recognition represents the outstanding achievement of my professional career and is testament to the full spectrum of my medical physics. It has been my greatest pleasure to have worked with the leadership, staff and colleagues of the RSNA for many years. I have considered this privilege to have been a meaningful contribution to the many functions and activities that have placed us on behalf of our profession."
