

University of Cincinnati
Department of Internal Medicine
FY14 Research Recognition Rewards

One of the goals of the Department of Internal Medicine’s Research Mission is to recognize the contributions of investigators within the Department of Internal Medicine to cultivate a positive, productive, and innovative research program. Pursuant to this goal, the following proposal is designed to provide a monetary reward to the principal investigator for receiving new government and industry research awards.

Qualifications:

- Must be a **NEW** research award, industry sponsored clinical trials excluded
- Monetary sum given only to the Principal Investigator (PI) of the award
- Must have ≥ 5% salary support of the PI funded by the award
- The award amount must be ≥ \$100,000 over the sum of the project period.
 - i.e.: Year 1 budget is 25,000, Year 2 is \$25,000; total funding is \$50,000 the PI would not be eligible for a recognition reward.
 - i.e.: Year 1 budget is \$50,000, Year 2 is \$50,000; total funding is \$100,000 the PI would be eligible for a recognition reward.
- The award fiscally benefits the DOIM with F&A costs and/or UC faculty or staff salary support that is in addition to the PI’s effort.

Research Recognition Disbursement Model

The amount associated with the research recognition reward will follow the tiered system below.

For UC Research Awards w/ F&A to DOIM

\$1,000	\$2,500	\$5,000
Direct award amount for the total project	Direct award amount for the total project	Direct award amount for the total project
\$100,000 to \$200,000	\$201,000 to \$500,000	>\$500,000

*Each task order awarded on a NIH contract will be recognized as a NEW research award for the PI.

\$1,000 will be given to DOIM investigators in recognition of their efforts for:

- Research awards to the University of Cincinnati which exclude F&A costs for the DOIM, *but* meet all other above qualifications.
- Research awards to DOIM investigators that are awarded to outside institutions, such as the VA, but include support for UC faculty and staff and meet all other above qualifications.

*Research Recognition Rewards will be dispersed to the PI within 90 days of the Notice of Award (NOA).

* All recipients must be employed by the University of Cincinnati at the time of disbursement.

*Awards will be processed through the PI’s division. They will be funded 50% through divisional RIA and 50% through the DOIM.
