Our Program’s Mission

Ensure our residents master the provision of high-quality, evidence-based care

Cultivate diversity and a strong Med-Peds identity in our residency program

Provide care to vulnerable, complex patients that face numerous social determinants of health

Develop physicians that are resilient through a culture of wellbeing

Provide our residents with opportunities for autonomy and leadership

Prepare our residents for a variety of career paths
Med-Peds Ambulatory Clinic

Combined resident-faculty practice

YOU are the patient’s doctor

Mission - To care for vulnerable, underserved patients

Level III Patient-Centered Medical Home

Local and national public health initiatives
**Our Curriculum**

13 4-week blocks starting July 2021

Rotate with your class on 4/5/4 block schedule for the first two years

Parity with categorical residents

9.5 blocks of elective during residency; select from over 100 electives!

FUN!
What Are We Looking For?

Team players

Positive outlook

Interest in serving others and the community

Desire to invest in the residency program

Diversity in all forms (Life experiences, interests, backgrounds)
Interview Season 2020-2021

All interviews will be virtual

Letters of Recommendation
- 4 letters – At least one from Pediatrics and one from IM
- Chairs letters not required, however are accepted
- Encourage letters from those that can comment on your clinical acumen, work ethic, dedication, and communication skills

USMLE & COMLEX Exams
- Step II-CK or Level 2-CE not required for an interview invitation
- All Step II-CK or Level 2-CE scores required by end of January 2021

Holistic & Ethical Selection Process
- We look at the “whole applicant” and the qualities they will bring
- Selection by committee and all committee members undergo implicit bias training

You can read more about our application requirements here!
