

MSTP Virtual Spring 2021 Retreat // Saturday, May 1, 2021

“Physician Scientist Networking with Horizontal Peer and Vertical Mentoring” Event Agenda

Retreat Goals

- Discuss your career topics of interest with physician scientists who span career stages from trainee to international leader, and have diverse backgrounds, specialties, experiences and career paths.
- Define key opportunities and potential threats you are likely to face at specific stages of your physician scientist career.
- List top characteristics you seek in a mentor and network members.
- Identify at least 1 person with potential to positively impact your physician scientist career based upon key concepts learned at the retreat.
- Reach out to at least 1 person after the retreat with potential to positively impact your physician scientist career as a mentor or network member.
