RESEARCH - Updates to policy changes, pre and post grant information, internal opportunities from the Office of Research, landmark publications, opportunities for collaborations on multi-disciplinary grants, and other information not under purview of other electronic publications. This is not for advertising seminars, speakers, etc.

CORES - Notifications of new technologies in existing Cores, establishment of new Cores and instrumentation, calls for collaboration on instrumentation grants, information about Core offerings, and highlights of research facilitated by Core.

EDUCATION - Trainees successes/achievements and innovations and improvements in education facilities and resources related to research.

CULTURE - Activities or opportunities that reward, recognize, inspire collaboration, and support our research faculty, trainees, students, and staff.

University of Cincinnati College of Medicine Office of Research

News for the week of January 21, 2020

College of Medicine Researchers Honored with UC Colleagues.
Four years ago the UC Office of Research began to annually recognize the top externally sponsored researchers. Since then, 61 UC researchers have been recognized each year. Of these, 45 (or 74%) have been College of Medicine faculty. Another 32 researchers have been honored three of the four years and, of these, 20 (63%) have appointments with the College of Medicine. To see the list of those honored visit: https://research.uc.edu/news/2020/01/14/each-of-these-researchers-has-true-excelled

UC Health Office of Clinical Research.
The Office of Clinical Research (OCR) is continuously working to improve study start-up for clinical trials. The OCR would like to announce a major change to the submission process for Research Approval. The OCR has eliminated the paper submission form and has moved the process to the electronic data capture platform, REDCap. Click here to access the REDCap submission form. This change, effective January 21st, 2020, will affect some aspects of submission to the Office of Clinical Research. For the full announcement, a reference guide and presentation slides from our previous Lunch & Learn on this topic, click here. If you have any questions about the changes to Research Approval, please contact Research-Admin@UCHealth.com.

Annual Research Symposium of the UC Center for Environmental Genetics.
All are welcome to the Annual Research Symposium of the UC Center for Environmental Genetics (CEG), Friday February 21, 2020, in the Kettering Research Building. The symposium highlights the success of CEG awardees whose recent pilot projects have led to promising results and/or larger funded studies in the realm of gene-environment (GxE) interactions. Distinguished guest speaker, B. Paige Lawrence, PhD ATS, will deliver the Keynote Address at 12:00pm in the Kettering Kehoe Auditorium. Dr. Lawrence is the Wright Family Research Professor & Chair in the Department of Environmental Medicine and Director of the Environmental Health Science Center at the University of Rochester in New York. A complimentary lunch will follow; please RSVP online at https://www.surveymonkey.com/r/S9MVLBH

Research Rising Star Applications Due Wednesday, January 22nd.
Nominations will be accepted for a College of Medicine full time Instructor or Assistant Professor who demonstrates outstanding commitment to health-related research. The nomination package must include a detailed letter from a Chair or Division Director stating why the faculty member deserves to be recognized and the nominee’s CV. The cover letter and CV should be submitted as one PDF document to sheehabe@ucmail.uc.edu by 5:00pm on Wednesday, January 22, 2020.
